

The MOBOTIX HiRes digital surveillance camera is world renowned for its image quality, technical specification and cost effectiveness when compared with traditional CCTV offerings. An initial design criteria, which said 'No moving parts' within the camera, has resulted in a system that requires virtually no maintenance.

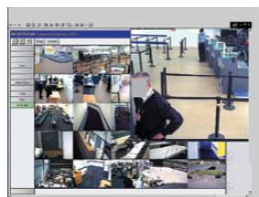

Why Choose Mobotix Cameras?

- Day and night maintenance free – no moving parts guarantees long term reliability
- Multi megapixel high performance IP Cameras
- Intelligent recording technology reduces required storage
- Increased resolution reduces amount of cameras needed
- Dual camera technology: 2 in 1
- Progressive-scan instead of half-frame blur generating sharp and true colour images

- Reduced installation costs at any distance standard Ethernet connection
- Simultaneous recording, event search and live viewing for multiple users

Product Advantages

- Event-controlled image rate minimises storage costs
- No additional power and heating required -30 to + 60°C
- No software licence costs
- Unlimited scalability and high return on investment
- Very low network load, processing power within the camera
- Bridging of recording during network failures
- Audio and SIP telephony – lip synchronised audio (live and recording)
- MxControlCenter included – dual screen technology
- Backup power requirement reduced by 8 times low power consumption
- POE enabled

HiRes Video Innovations

The German company MOBOTIX AG is known as the leading pioneer in network camera technology and its decentralized concept has made high-resolution video systems cost efficient.
