

Alta H6 Mini Dome

Small size, mighty performance, now in the cloud

Get high-quality, 24/7 security for both indoor and outdoor areas without breaking the bank with the Avigilon Alta H6 Mini Dome. This discreet camera delivers clear visuals up to 5 MP, a wide view, and built-in IR illumination, all managed seamlessly through the Alta cloud platform.

AI-powered insights

Stay informed about what's happening at your site with integrated video analytics to identify objects and receive loitering alerts, proactively addressing threats for a safer environment.

24/7 awareness, anywhere

Access live and recorded videos on any device, at any time. Secure cloud access through a browser or app provides instant, real-time updates and awareness.

Effortless installation

Install quickly using a modular design. Attach the camera to surfaces, ceilings, or pendant mounts for indoor settings, or utilize surface and pendant mounts for outdoor use applications.

Durable outdoor design

Take on the outdoors with the outdoor variant rated IK10 and IP66/67. These robust cameras endure harsh weather and potential vandalism, providing cost-effective coverage.

See what matters most

Get detailed visuals and comprehensive awareness with 2 to 5 MP resolution and a broad field of view. Built-in IR illumination provides clear visibility in low-light conditions.

Trusted & secure

Avigilon Alta video security solutions safeguard your data from the camera to the cloud with a reliable, cyber-secure platform. This design delivers end-to-end protection.
